

## Cheerleading

### Program Summary

Having grown rapidly nationally and internationally over the past few years, cheerleading represents an outstanding opportunity for our students. At Coolum State High School, our celebrated Cheerleading Academy Program is centred on commitment, passion and team work. Led by a highly successful national cheer and dance coach, our dynamic program involves a range of energetic routines and training exercises aimed at developing students' athletic prowess, including their strength and stability, as well as their dancing and performing skills. Students in this program also participate in a number of cheerleading excursions and State scholastic competitions giving them the opportunity to showcase their skills.

Recognising the crucial time in teenagers' lives, a key aspect of this program is the promotion of positive self-image, team spirit and an appreciation of an active and healthy lifestyle.

Students who would benefit from this program are committed, able to work within a team environment and are dedicated to expanding their athletic and creative talents.
