Academic Learning Program for High Achievers 2027

A unique, application-only, opportunity exists for students entering Year 7 in 2027, to participate in Coolum State High School's *Academic Learning Program for High Achievers* (ALPHA).

PROGRAM VISION: The Academic Learning Program for High Achievers (ALPHA) focuses on creating a safe and supportive environment for nurturing a diverse range of academically-minded students who are university-bound. ALPHA classes are designed to enrich students through a series of learning opportunities that allow them to grow by fostering a culture of excellence. These students are supported to cultivate a base understanding of the curriculum, more quickly and autonomously than core Junior Secondary classes.

ALPHA students are expected to participate in a variety of activities, such as ICAS competitions and university-themed excursions, held throughout the year. The development of study and organisational skills is paramount to the program. ALPHA empowers students to be critical and creative thinkers through a series of intensive learning opportunities that develop their abilities to be innovators, entrepreneurs, and responsible global citizens of the future. They are encouraged to build critical thought processes and apply new knowledge to other areas by responding to real-world issues and ultimately participating in community projects as Leaders.

ALPHA challenges, extends, nurtures, and develops students into successful learners who are prepared for Senior Secondary and University options. Students are placed with like-minded learners and participate in in-depth studies across all subjects as per the Australian National Curriculum. Class composition changes each year to maximise peer learning. Extension strategies through Junior Secondary ensure successful Senior Secondary pathways commencing in Year 10. The results achieved by our ALPHA students are truly impressive, with over 70% of students producing A-level results.

Entrance into these classes will be based on demonstrated evidence of:

- A high level of performance ability in English, Humanities, Mathematics and Science
- Evidence of consistently high levels of behaviour and effort in all subjects
- A high aptitude in literacy, numeracy, problem-solving, and critical thought as evidenced in the ALPHA Entrance Examination (compulsory)
- A positive mindset towards learning

*ALPHA Application must be submitted in conjunction with the
2027 Coolum State High School Enrolment Application by 3.00pm Friday 22 May 2026.
Please do not attach any original documents to the Applications.*
